This could be the song everyone relates to
Another melody something we go through
This could be the words to use in good fortune
To keep in the bag of my foiled backup plan
ItæŠˆ the beat that keeps you marching on
So take your chance I got armour on
Reasons will reveal itself into time
So for luck will you cross your fingers?

You and I girl, weæŠ³e got something golden
Did you now they say it never lasts
And oh-oh-oh, weæŠ³e got something golden
We canæŠ°, canæŠ° break, everyone, everyoneæŠˆ
wrong
Everyone, everyoneæŠˆ wrong

This could be the verse always reminding you
Of your battle scars all your could have beenæŠˆ
Only I know what IæŠ³e been through
But for luck IæŠŽ still cross my fingers

[Chorus:]

I could have used this long ago
You took my good advice
I could have used this long ago
Should have crossed my fingers

[Chorus:]
