Distance means nothing to me
It only makes me want to see you longer
My words just like a mentioned kiss
With every letter they are growing stronger

Days go by
Feelings they go on
Unfortunately without you
It'll never snow in Florida

Its best to take your time
Conversation cuts like glass
I'm the calm before the storm
I'm the second before the crash

I've been between myself for days (x2)
I'm the hero of the year

Distance means nothing to me
It only makes me want to see you longer

Days go by
Feelings they go on
Unfortunately without you
It'll never snow in Florida

Its best to take your time
Conversation cuts like glass
I'm the calm before the storm
I'm the second before the crash

I've been between myself for days (x2)
I'm the hero of the year (x2)
