You cant get rid of me that easy no  
Not without a fight  
Your cool and collective approach is appealing yeah  
You've got it down just right  
You should put a blindfold over my eyes  
And tape my mouth shut

When every word I say might as well be might as well  
be my last thought

No I don't want to make this an issue  
I just want to pick back up right where we left off  
So we don't get caught up again

No I don't want to make this an issue  
I just want to pick back up right where we left off  
So we don't get caught up again

You left me pictures just to tease me  
Or maybe out of spite  
You used your body to confuse me  
Your hips swing just right  
How do I control myself around you  
I need to be locked up

When every word I say might as well be might as well  
be my last one

No I don't want to make this an issue  
I just want to pick back up right where we left off  
So we don't get caught up again

No I don't want to make this an issue  
I just want to pick back up right where we left off  
So we don't get caught up again

You're a wolf in sheep's skin  
Teeth can tear me limb from limb  
Do you have the room to spare me in your heart of  
hearts

I'm a wolf in sheep's skin  
Teeth can tear you limb from limb  
I don't have the room to spare you

No I don't want to make this an issue  
I just want to pick back up right where we left off  
So we don't get caught up again

No I don't want to make this an issue  
I just want to pick back up right where we left off  
So we don't get caught up again  
Pick back up right where we left off  
So we don't get caught up again
