

A New Found Glory "scrapped knees"

Visit "[scrapped knees](#)" on MotoLyrics.com

looking back now i see how far i've gone it's been a
while now
for only one song past intentions i never ever meant to
deal with now
well just by looking around i don't think that i'll ever
come down
well you know right now that i am trying to change but
believe now
i'll try to change everything you know that i could
rearrange
and it gets harder and harder now well you know i want
to change the past
past intentions i never ever meant to deal with just by
looking around
well you know i tried so hard to change right now well
just by looking around
well i don't think that i'll ever come down all the way
down
