do you remember when we  
used to talk on the phone for hours,  
or just kill time by  
counting stars before we went to sleep?

do you still think I'm funny?  
do you... still think I am?  
well, at least to one of us.(x2)

sometimes I get a little out of hand.  
I've made so many friends, so many plans,  
a million people and too much time  
that I don't have.

the joke's on you... I don't understand myself.  
the joke's on you... I meant it the whole time.
