So glad to see you well
Over come them
Completely silent now
With heavens help
You'â,â,çve cast your demons out

And not to pull your halo down
Around you neck and tug you off your cloud

But I'â,â,çm then just a little curious
How you'â,â,çre planing to go about making your
amends
To the dead x2

Recall the deeds as if they'â,â,çre all
Someone else'â,â,çs atrocious stories
Now you stand reborn before us all
So glad to see you well

And not to pull your halo down
Around your neck and tug you to the ground

But I'â,â,çm more then just a little curious
How you'â,â,çre planing to go about making your
amends
To the dead x2

With your halo slippin'â,â,ç down
Your halo slippin'â,â,ç

Your halo slippin'â,â,ç down
Your halo slippin'â,â,ç down

Your halo slippin'â,â,ç down
(More then just a little curious how your planing to go
about making your amends) x4

Your halo slippin'â,â,ç down
Your halo slippin'â,â,ç down to choke you now
