Oh, yeah
Whenever I see you
I can't close my eyes
Whenever I hear your voice
I can't hear anything else but you
And everything you do
You get the best of me
Bring out the best in me
Yeah
It is the way that you say
The sweet nothings to me
The way that you can
Handle anything easily
You changed everything
Took me from fall to spring
I'll always fight for it

Because you know I'm gonna run until I fly
You know I will reach until I touch the sky
To be with you
Because you're incredible
You give me every reason why
I keep going forward
I've just gotta try
I do all this for you
Because you're incredible
You're incredible
Whenever I'm with you
There's no one else in the world
Whenever I think about you
Is just like all the time
Stand still with you alive
It's real
You get the best of me
Bring out the best of me
Yeah
Up late every night
Amazed by you
Always on my mind
Your beautiful soul
You're perfect, you know

And I don't want this moment to change
Because you know I'm gonna run until I fly
You know I will reach until I touch the sky
To be with you
Because you're incredible
You give me every reason why
I keep going forward
I've just gotta try
I do all this for you
Because you're incredible

You're incredible
You're incredible
You're incredible
You're incredible
Oh, you're incredible
Run, run, run straight to you, you, you
You feel love, love, love, oh, oh
Run, run, run straight to you, you, you
You feel love, love, love, oh, oh

Run until I fly
You know I will reach until I touch the sky
To be with you
Because you're incredible
You give me every reason why
I keep going forward
I've just gotta try
I do all this for you
Because you're incredible
You're incredible, oh
You're incredible, yeah
You're incredible, oh, yeah, yeah
You're incredible
