I close my eyes
I'm waiting just to dream
A small escape from this harsh reality
I'm waiting for a taste of honesty
Cause when it's real, that's all I'll ever need

I fall to my knees, is it you or the drugs I see?
Your standing right in front of me
How come I haven't seen you in weeks
Your standing right in front of me
I don't recognize the girl that I see
I miss you, and I can't do this without you

Wherever you go, that's where I want to be
When the sky falls, upon you and me
I hold you close, without letting you know
When good luck comes, I will let you know

I fall to my knees, is it you or the drugs I see?
Your standing right in front of me
How come I haven't seen you in weeks
Your standing right in front of me
I don't recognize the girl that I see
I miss you, and I can't do this without you

It goes on and on, the time is turning
Lessons learning, now we can't go back (x2)

Your standing right in front of me
How come I haven't seen you in weeks
Your standing right in front of me
I don't recognize the girl that I see
I miss you, and I can't do this without you

It goes on and on, the time is turning
Lessons learning, now we can't go back
