You got it...
You got it figured out
You got me...
Wrapped around your finger now

Tell me what you think about
What you think about
What you think about us

Wanna stop it now
Wanna scream it out
At the top of my lungs

Anything I can say that will make you stay
Anything to make you say my name
Anything

You need it...
Every single word I say
If I could...
I'd say it over differently

Tell me what you think about
What you think about
What you think about us

Wanna stop it now
Wanna scream it out
At the top of my lungs

Anything I can say that will make you stay
Anything to make you say my name
Anything

But you won't
No you won't
I know you won't
I know you...

Anything I can say that will make you stay
Anything to make you say my name
Anything
