Pain is the name of the game
We're about to play
Would you let it tame you?

If blood was dripping from your hands
Wet with contraband
Would you let it change you?

WHOA she'll break me
And
WHOA she'll take me
But she won't find out

It's over now...

I could be there by your side
If only for a night
If I could choose you...

And know
The places that we go
Are ours and ours alone
And I won't lose you

WHOA she'll break me
And
WHOA she'll take me
But she won't find out

It's over now...
