Out of all the words you spoke  
These were sealed half-past your lips  
And with every exhale  
I will breathe them in  
But I forgot the storyline  
I forgot my place to stand  
So I held my head high  
And now it's stuck beneath my spine

It is time to turn and face the sun  
Forget "safety in solace"  
We have battles to be won  
I carry untold secrets  
And despite my lies I bet  
That you will come to know me  
As the one that fought the rest

I will breathe for the first time  
When I cast you out of my life  
We will run and dance and scream and speak and  
shout in foreign tongues  
Do you remember why we bloomed so well?  
Did I surrender to your white thighs?  
This is silence  
This is the end

It is time to turn and face the sun  
Forget "safety in solace"  
We have battles to be won  
I carry untold secrets  
And despite my lies I bet  
That you will come to know me  
As the one that fought the rest

So pick it up, pick it up, pick it up  
Come on and show me what your made of  
Seven years in horrid daylight, and yet you complain?  
So honestly, yeah?  
Do you expect me to remember?  
Like you can wrap me 'round your finger  
I'll be dancing on your fist!

It is time to turn and face the sun  
Forget "safety in solace"  
We have battles to be won  
I carry untold secrets  
And despite my lies I bet  
That you will come to know me  
As the one that fought the rest
