

A Place To Bury Strangers "Slide"

Visit "[Slide](#)" on MotoLyrics.com

Ever since I was a little boy
I had a lust to live
I wouldn't be so insecure
Except there's oxygen
I wouldn't seem like I was lost
Like a beetle on the beach
I stayed by there is a prettyful to reach

But then I remember as it has broken me in
All the times forever past weren't thin
I wouldn't be so best of now if I was left alone to bend
I wouldn't be if given up on what we had again
Dreams feel like give us our lives can be the same
I could try or I could slide days without have changed
Dreams feel like give us our lives would stay the same
I could try or I could slide days without have changed
Dreams feel like give us our lives can be the same
I could try or I could slide days without have changed
Dreams feel like give us our lives would stay the same
I could try or I could slide days without have changed
