"Erase Your Hopes"

Visit "[Erase Your Hopes](#)" on MotoLyrics.com

I've been hiding from your eyes staying in the shadows
of night
I tried to save my life
I've been asking myself if I fight for what can I die?
Why had I survived?

They wanted to destroy me
They killed my god above me

I am begin and the end
Your enemy, your friend
I am the blackened heart
Violated blood

No one compares to me
Now I'm alone and free
You have to drop your dope
Just to erase your hopes

Here the light of the day has gone away
Here the crack of the dark shows my way

I am begin and the end
Your enemy, your friend
You have to drop your dope
Just to erase your hopes

Erase it away...

Who keeps you alive to take control of you?
This monster of night lives deep inside you
