"My Therapy For Pain"

Visit "[My Therapy For Pain](#)" on MotoLyrics.com

The silence is erasing my screams
The darkness is defeating my fears
The nonsense is I don't feel the life
Anymore, anywhere, I feel numb -
The despair has owned my life and left alone me

I redefine every lie, every cry
Everything I left unfinished and abandoned
I'm disbelieved
I'd lost myself in the grief
My tears are gone but my life goes on

The silence is erasing my screams
The darkness is defeating my fears
And destroying my will to survive
