So welcome here  
This is the end of the line  
No more tears, no more lies  
No more fears and smiles  
Screaming letters of love:  
Just so rude - little tough  
Screaming letters of hate:  
I feel the same again

I am the fallen one  
The only one solution  
My name is death  
I'm the end of corruption

I am the fallen one  
I am the only one...

My sun is falling to the dusk  
I have to see the death as fact  
There's no more fears and no more lies  
I changed the black into the white
