"The Middle Of Nowhere"

Visit "[The Middle Of Nowhere](#)" on MotoLyrics.com

Abandone your hope the one who entered this place
Leave it behind you
Open your eyes, expand your mind
And see this place is what you need

Could never be found
Could never be saved
I am what I am
I'm going insane

Could never be found
Could never be saved
Away from myself
Away from my pain

Abandone your hope the one who entered this place
It doesn't matter
The perfect world where we will never die - as broken
hope
We're lost forever
