When the night turns into day  
You can't believe the things I say  
And when I lie and make you cry  
I'd prefer if we were high

All the waste in the world  
Will keep me from this perfect girl  
And all the things that you consume  
Will rot you here inside my room

The time we spend makes us drown  
It's easier than coming down  
And when I fall and think of you  
I always know we never knew

All the waste in the world  
Will keep me from this perfect girl  
And all the things that you consume  
Will rot you here inside my room

Every time I dream your name  
Everything becomes the same  
Every night I fly to you  
To relive the things we do

All the waste in the world  
Will keep me from this perfect girl  
And all the things that you consume  
Will rot you here inside my room

The time we spend makes us drown  
It's easier than coming down  
And when I fall and think of you  
I always know we never knew

A perfect girl  
This perfect girl  
A perfect girl  
In the world  
Perfect girl  
That you consume all the waste

Perfect girl  
Will rot in here all the way  
Perfect girl
