I can't stand the sight of your face or the sound of your name anymore.

Some men just want to see the world burn.

Hate devours me.

Rage empowers me.

Fear can't stop me.

Fear won't stop me.

Some men just want to see the world burn.

Some men just want to see the world burn.

I can't stop, I can't stop this...

I can't stop, I can't stop this...

I can't stop, I can't stop this headhunter.

I will watch you die.

I will watch you die.

I can't stand the sight of your face.

I can't stand the sight of your face.

I can't stand the sight of your face.

Hate devours me.

Rage empowers me.

Fear can't stop me.

Fear won't stop me.
