Neurotica you player and daughter of mine, Don't you
think I know what's all behind I suck
On your evil punches that my grants soul tumble and
roll, You give me strength to break my
Chains, Demonic assaults is all the remains - raising
hell within my veins, claim it's
Right to play those games, you're making me repeat
myself again - bury the hatchet, light
My torch, A true believer, a deadly force, you're
making my sore eyes live again, The
Wrath of my demon is all I can give back to you, No use
for solitude it's better to be
Burned, and not to learn that your master will return,
raising hell within my veins, claim
It's right to play those games, you're making me repeat
myself again - bury the hatchet,
Light my torch, A true believer, a deadly force, you're
making my sore eyes live again

Chorus

Hear! Hear them say it's so clear, What's behind and
so near
Hear them say it's so clear... , that you're one of them

Look at the inside and tell me that everything there is
so sane, You're so affective and
Only got your roots to blame, You give me strength to
break my chains, Demonic assaults
Is all the remains - raising hell within my veins, claim
it's right to play those games,
You're making me repeat myself again - bury the
hatchet, light my torch, A true believer,
A deadly force, you're making my sore eyes live again,

Chorus

You give me strength, to break my chains, Demonic
assaults, is all that remains

Chorus
