Straight forward on the path of life, Who makes you
choose that way, Is it a crime to give
It all up, To leave it all behind,
Oh, this is all so crystal clear, Going on in shallow
blindness, To watch the madmen
Sort things out, No time to spill, Isn't it such a thrill? By
self deception I am bound
To take it seriously, I'm way beyond, I've put myself in a
such horrible way to go

Chorus

I think you just made a big mistake... This is just a fake
cause I am, Guilty by association
Sinner of mankind, I'm faced to build my life upon this
hidden path I just can't find

Well... is this all so crystal clear? Sometimes it seems
like time stands still, Demolish
Myself at free will, Can you watch me burn as the sun
goes down and my life is so
Overtuned, Can I identify myself with the judgement
that I'm facing here, Can't deny,
Won't deny that I'm level with the ground by fear

Chorus

Punished and banished I kill the ways of life, You
predict and restrict my views in the
Hands of time

Chorus

You wear the face of a desperate man displacing his
fatal actions, Refuse to recall his
Miserable times of stupid and naive attractions, Going
on in shallow blindness, To watch
The madmen sort things out, No time to spill, Isn't it
such a mother fucking thrill? By
Self - deception I am bound to take it seriously, I'm way
beyond, I've put myself in such
A horrible way to go

Chorus

I think you just made a big mistake... this
conversation's over, The analyst may have won
This case of discrimination and nothing but lies, This
fallen era makes me wonder, Is it
Worth it when your dignity dies?
