"Another Life Story"

Visit "[Another Life Story](#)" on MotoLyrics.com

It's just another of a life
Following those feelings in the night
The memories will live in us
Just like the love forever in the past
It's just another story of the life
Following those feelings in the night
The memories will always live in us
Just like the love forever in our past
I miss your love!

Chorus:

I miss your love drying in the night
You broke my heart, give me back my life!
I miss your love drying in the night
You broke my heart, give me back my life!

I'm still waiting, I'm still dreaming
I am searching everyday!
Maybe someone, maybe something
It will take my pain away!
I'm still waiting, I'm still dreaming
I am searching everyday!
Maybe someone, maybe something
It will take my pain away!

I miss that love
I miss your love!

Chorus: (x2)

I miss your love drying in the night
You broke my heart, give me back my life!
I miss your love drying in the night
You broke my heart, give me back my life!
