Normalize the signal and you're banging on freon

paleolithic eon

put the fake goatee on

and it booms as cool as

sugar free jazz

Schools he bombs, he bombs

Stack wax lie like a placemat

won't lap

or help you at the automat

and it's clear and clean as

sugar free jazz

Schools he bombs, he bombs

Fossilize apostle and I comb it with a rake

you can't escape

you pull out the brake

and it booms as cool as

sugar free jazz
