Life has never been better.
I still remember when I used to wear the same old
hooded sweater.
Life has never gone faster. I think it's time to stop.
Okay. Maybe I'll admit, you've been on my mind a lot.

Life has never felt this way.
I honestly don't know what to say.
I feel like I've been lost this whole time.
Life won't leave me alone.
I'm trying to find a voice I know.
Why don't you let out your words and I'll speak mine.

I don't want to let these tears slip.
I don't want to let these notes hit.
I don't want to let you know it, but I think I'm falling
down.
I don't want to rush this too fast.
I don't want to let the pain last.
I guess they don't all get my past, but I think I'm falling
down.

Falling down, falling down.
Falling down, falling down.
I don't want to let you know it, but I think I'm falling
down.

So I tried to find some words,
but it still hurts when she speaks them.
So I tried to let it go,
but they all know what is freedom.
You know, I wish someone would just tell me,
cause lately I wish someone would just help me.
It's hard to think alone.

I don't want to let these tears slip.
I don't want to let these notes hit.
I don't want to let you know it, but I think I'm falling
down.
I don't want to rush this too fast.
I don't want to let the pain last.

I guess they don't all get my past, but I think I'm falling down.

Falling down, falling down.
Falling down, falling down.
I don't want to let you know it, but I think I'm falling down.

Now these days are gone.
Paradise is no ideal life.
I still live alone and do whatever I feel like, now.
And I think you'll find out.
If you just can't make it then why would you try it?
If you just can't win, go find some money and buy in, now.
Hard to believe I'm still around, now.
Life has never been better.
I still remember when I used to wear the same old hooded sweater.
Life has never been better.
I still remember when I used to wear the same old, same old, same old.

I don't want to let these tears slip.
I don't want to let these notes hit.
I don't want to let you know it, but I think I'm falling down.
I don't want to rush this too fast.
I don't want to let the pain last.
I guess they don't all get my past, but I think I'm falling down.

Falling down, falling down.
Falling down, falling down.
I don't want to let you know it, but I think I'm falling down.
