"A Conspiracy"

Visit "[A Conspiracy](#)" on MotoLyrics.com

did you ever hear
the one about last year
it was all a lie
ain't it funny how the time flies
what we gonna do baby
what is left for us to prove
i've never stolen nothing, not a thing
tried to stay away from this year's
big thing
ain't as easy as it seems
to find a mutual dream
can you tell me wrong from right
do you know when to freeze or take flight
can you tell me more or less
i got to know-confess
chorus:
don't neglect me
come be my conspiracy
don't neglect me
come be my conspiracy
now you get a question about your answer

say try your adam's apple
you talk it try it bite it right
so now you want to fight? ok
let's step outside
i get tradition in addition
my definition it don't hold me back
well what you think about that
what you dont understand
this is a very old land
can you tell me wrong from right
do you know when to freeze or take flight
can you tell me more or less
i get to know-confess
chorus
