Verse 1

Have you ever met someone that made you lose your
breath?
Have you ever fell in love with the way one looks into
your eyes?
Have you ever been lost in someone's kiss, fell into
bliss?
Have you ever been so sure, fear stirs? Reason leaves.
Don't say it'll last forever. Don't say you'll never
lie.
But take life's walk with me we'll see where it leads,
so take life's walk
With me.

Chorus

Different poses of the night
Flash through the strobe lights of my mind
I want to make love to ya honey, sweet love to ya
honey, do it all night
Long until we see the dawn.
La da dee da A.....

Verse 2

Have you ever met someone you couldn't do without?
Have you ever got just what you wanted then pushed it
away?
Have you ever met the man of your dreams then
denied his love?
Have you ever closed your eyes and jumped head first
then slowly exhaled?
Nothing lasts forever. Nothing really lasts.
So take life's walk with me we'll see where it leads,
so take life's walk
With me.
