What's the deal

I wanna know is this love for real

Or could it be lust that I feel

You got it going on and on like a real fly sex appeal

Physique extra ill sun sweet dress to kill

You got me open like token hot and smokin

Jacuzzi bubble bath laughin joking

Candle light talking about how you and your ex-man  
fight

Tropical sight beach sand white listen

Seafood dishes wine cooler champagne wishes  
waterbed head

Fine do with some riches

our loveable hugeable I love the cute

As long as I'm around and down nothin could ever  
trouble you

Chorus:

I want your body the way you touch me

Rather be in your Caddie

You could be my big daddy

Take it slowly heaven hold me

Rather be in your Caddie

you could be my big daddy

..... I spend quality time

Cute face haircut like the Hally design

Keep my day laced up with fly gear and makeup

But you should see her when she wake up never could  
we brake up

Shop till you drop cause the cream dont stop

Buy you a bunch of outfits your sexy your hot

So she could look good for Hev D

Overweight loving MC rub you gently

You know its C big CEO sex-o-pee

Mac game similar next to gold and flex

You might feelme creeping to your room late at night

It's hell a waterbed so get it right

You be like that its that big man we all up tonight

Game ear tight why you caught up in the hype

That's right that's miggie, miggie, biggie

Baby your ready for big daddy

Chorus

You on my mind like all the time

You genuine and you fine missing you like dollar sign

Boo be all that and then some

Job all that mad income

Hand New Yorkers wish you represent from

24-7 you the one that I be sweating

You and time that's no question couldn't be nothin less  
than

Sexually the best next to me I confess

You got me hooked on like Phonics or weed heads on  
Chronic

Now sit your ready you give me more like Demi good  
and plenty

Nothin could compare to you Boo I swear to you

I feel for you for real for you

All I wanna do is be with you

Might even steal for you

You walk like talk like sexy

When you kiss me you bless me undress me caress me

You on my mind like all the time

You genuine and you fine missing you like dollar sign

Chorus: repeat until fade
