Live your life, tonight is your night (2x)

Dressed fresh and ready for tonight  
Bout to take off, I'm ready for the flight  
Snap! Snap! I'm ready for the lights  
The people screaming, this feeling so right  
I'm a rockstar, this is my show  
I see the hands waving in the front row  
I'm all decked out, trying to be on the low  
But the bumble bee AP got that glow  
I shoot for the stars like a paparazzi  
Come to that block in a brand new Masee'  
Fellas respect, girls do too  
They all tell lies, but I speak the truth  
I was born to win  
I was born to shine  
All these other dudes  
Are borderline  
Come on now, you know its my time  
Let me tell the whole world whats on my mind, hey!

Lets fly (fly) 2x  
Until we reach the stars in the sky  
So high (high) 2x  
This feeling has me coming alive

Live your life, tonights is your night (4x)  
(Repeat)  
Live your life, tonights is your night (4x)

Toma mi mano Y ya  
Preparate para volar (volar)  
Just dejate llevar  
Hoy tu mundo va a cambiar (cambiar)  
So just..

Live your life, tonights is your night (4)
