Baby no, you don't see, things the way I need you to
see, you,
You know me, I know you,
Baby now, don't go, come now love or you'll miss the
show, you see,
I need you, you need me.

Anna knows me, Anna knows what's happening,
Anna knows me, Anna knows what's happened to me.

Baby your mouth, close to mine, just don't kiss for a
little while love, you,
You know me, I know you,
Baby now, don't go, come now love or you'll miss the
show, you see,
I need you, you need me.

Anna knows me, Anna knows what's happening,
Anna knows me, Anna knows what's happened to me.

Anyway, I'll hold you tight through the black of night,
And you'll see, that we, we'll break through, we'll break
through.

Anyway, I'll hold you tight through the black of night,
And you'll see, that we, we'll break through, we'll break
through.

Anna knows me,
Anna knows me,
Anna knows me,
Anna knows me.
