

A Silver Mt. Zion "Pretty Little Lightning Paw"

To fix it all
With lightning paw
Or explode
From joy and light
To break the bars
With piss and scars,
Just hold me 'neath the tumbling stars
And tell me
It's alright...

Lightning paw
Pretty little lightning paw

There is the valley all swimming in light
There is a wonder in worry in life
There is a reason and there is a light
There is a valley all buried in light
There is a reason and beauty in life
There is a wonder and there is a light
The wind in the trees and the tumbling light
The whispering stars in the clouds tonight
