Walking down another side road
Following stones that will never get you home
Wandering round and round in circles
Wondering where the familiar streets have gone

So what you trying to find
Well, take a look around and know
You're already here

[Chorus]
I'll be by you
Right beside you
We can make it here
I'll be by you
Right beside you
We can find it here

Looking back, you accede to nothing
Looking forward, you wonder why you don't have it all
Always have an explanation
Of why you always have it so wrong

So what you trying to find
Well, take a look around and know
You're already here

[Chorus]
I'll be by you
Right beside you
We can make it here
I'll be by you
Right beside you
We can find it here

Just say the word, I'll stay
I'll let you get your way
Then I take your side
Every single time
I'll be there forever

[Chorus]

I'll be by you
Right beside you
We can make it here, oh yeah
I'll be by you
Right beside you
We can find it here

I'll be by you, right beside you
I'll be by your side
I'll be by you, right beside you
I'll be by your side
