I'm only a whisper, I'm sat real still  
Run in my head with a knife  
I look at you and I fall to the floor  
You open the dream in my life

[Chorus]  
Do you love me  
Like I love you  
I am lonely  
'Cause I love you

Part of me wants you to open the door  
Part of me screams in the night  
Love is a jealous thing that I adore  
Let lovers go, let lovers go

[Chorus]  
Do you love me  
Like I love you  
I am lonely  
'Cause I love you

[Chorus]  
Do you love me  
Like I love you  
Do you love me, yeah  
Enough
