Vers 1

We were lying on the couch with your hand in mine
My head on your chest feeling your heart
A half awake I lay there and thinking about
How a friend like you could be such a big part of mine

Chorus

Friends are like the flowers in the garden of life
They help you in times of trouble and of strife
Oh tell, please tell me, what would I do - o - o
If I didn't have a garden full of friends like you

Vers 2

I miss you when I haven't seen you in just a day
Your smile and your eyes, they can take me away
To a place, where the only person is you and me
So I can be the person, I will rather be

Chorus

Friends are like the flowers in the garden of life
They help you in times of trouble and of strife
Oh tell, please tell me, what would I do - o - o
If I didn't have a garden full of friends like you

Bridge

Oh I can't imagine a world without you
Oh I can't see the light if your not here too

Chorus

Friends are like the flowers in the garden of life
They help you in times of trouble and of strife
Oh tell, please tell me, what would I do - o - o
If I didn't have a garden full of friends like you
Please tell me, what would I do - o - o
If I didn't have a garden full of friends like you
