Something fearless in your eyes

Something careless about your smile

Something fragile when you hold your breath

And when you move

You move right through me

Fingertips so gently on my skin

I'm underwater

I feel the flood begin

Fingertips so gently on my skin

You're taking over and over again

Shed your armour

Spin your web

Hypnotise me with the longest stare

Make your promise

Or maybe it's a threat

'Cos when you look

You look right through me

We're flesh and bone

Together and alone

And we're looking for a home

Silver moonlight fills the sky

Calling gently to the evening tide

You're unfolding right before my eyes

And when you move

You move right through me
