"Forefathers"

Visit "[Forefathers](#)" on MotoLyrics.com

look at what the forefathers left for us
can you feel the spirit moving accordingly
one thing I realize about this day
oh, have we learn a thing more true
from what our forefathers left

have we learn, have we learn
have we learn, have we learn from our forefathers
have we change, have we change
have we learn, have we learn from the past

yesterday was that you learn
tomorrow is that for us to dream
and today is that for us to live our life
to change for the better, to change for the better
to change for the better, to change for the better
to change for the better

have we learn, have we learn
have we learn, have we learn from our forefathers
have we change, have we change
have we learn, have we learn
have we learn, have we learn from our forefathers
a thing more true
