[Intro - Brandy]

Baby ...baby .. baby

[Verse I - Brandy]

Take a good look at me

I done cried from the lies

It hurts so bad inside

If you need a thing

Ain't never had nothing to me break me down to the floor

Til' I hide the pain

Here to show you a compromise of heart for I'm fallin apart

Til there are no remains

What had me thinking your word was your bond
(Don't you know)

That your never gonna love if you knew it was a situation you knew you weren't ready for

I could see if your feelings had changed but damn you just slammed the door

You told me the one you said you would put down your whole life for

I can comprehended the deck of cards you dealt me

[Hook - Brandy]

How can you turn on me?

(How can you how can you)

How can you purposely?

(How can you how can you)

[Chorus - Brandy]

Lessoned learned house can burn

Were close to heat

Bet your words don't mean nothing to me

Thought you said

Thought you said that you loved me

Thought you said

Thought you said that you need me

Thought you said

Thought you said you complete me

Thought you said you were never gonna let it go

Thought you said
Thought you said when you held me
Thought you said
Thought you said when'd you tell me
Thought you said no one else could replace me
Thought you said that your never gonna let it go

[Verse II - Diddy]

The times that you weren't there
The times that you left me here
The times that I needed you
You know my love is true
My passions inside for you
The nights that I cried for you
A man has these feelings too
Same shit that shall go thru'
I been here before
Sometimes the pain you ignore
Until it's right at your door
And then you just can't take it no more
Why does love feel this way?
Why does it hurt so bad

[Hook - Brandy]

How can you turn on me?
(How can you how can you)
How can you purposely?
(How can you how can you)

[Chorus - Brandy]

Lessoned learned house can burn
Were close to heat
Bet your words don't mean nothing to me
Thought you said
Thought you said that you loved me
Thought you said
Thought you said that you need me
Thought you said
Thought you said you complete me
Thought you said you were never gonna let it go

Thought you said
Thought you said when you held me
Thought you said
Thought you said when'd you tell me
Thought you said no one else could replace me
Thought you said that your never gonna let it go

[Verse 3 - Diddy]

The heartache and pain

Sometimes it goes to your brain
Sometimes it makes you insane
Sometimes our joy is our pain
Cuz it tears you apart
These affairs of the heart
I think I'm strong but I'm not
And when I look in ya eyes
You know it kills me inside
But I can't wait for that day
That you come back to me girl
After we both go away
It's just to see if it's real
There's no denying the fact
It's meant to be if you let it go
And then they come back.
If this is our last dance we need to practice our steps,
The situation I left behind but your hearts what I kept,
You said I did you wrong you did me wrong we was
both at fault
And of course you lost me with your alibis
And all of your talking
And most important I just question my self

[Bridge - Brandy]

The pain is taking over I just can't believe
(I need your hand)
What happened then compared to now is dreams
(I need your hand)
And I know now that you'll need me

[Diddy:]

I can't sleep, I can't breathe,
I ain't eat in days
Stomach pains from arguing
Didn't you cheat on me that's how the problems started
And as far as I'm concerned we learned our lesson
Well it's all in the healing and that process has got me
stressin'
I'm so pressured I'm so physically drained
I ain't thinkin straight
I loved you more than my own self
Although I couldn't bear the pain of seein my old self
Young wild uncontroled self
I love you girl
I don't need no one else

[Chorus - Brandy]

Lessoned learned house can burn
Were close to heat
Bet your words don't mean nothing to me
Thought you said

Thought you said that you loved me
Thought you said
Thought you said that you need me
Thought you said
Thought you said you complete me
Thought you said you were never gonna let it go

Thought you said
Thought you said when you held me
Thought you said
Thought you said when'd you tell me
Thought you said no one else could replace me
Thought you said that your never gonna let it go

[Outro - Diddy & Brandy]

[Diddy]
When I look in your eyes
You know it kills me inside

[Brandy]
Didn't you. didn't you...ooohhh

[Brandy]
Lesson learned
House can burn
We close to heat
Bet your words don't mean nothing to me

[Diddy]
These affairs of the heart
I think I'm strong but I'm not

[Brandy]
Thought you said thought you said that you love me
Thought you said thought you said that you need me

[Diddy]
Come back to me girl

[Brandy]
How can you how can you
Thought you said thought you said you complete me
Thought you said you were never gonna let it go
