Uninvited feelings
They come without a warning and stay too long.
I don't wanna feel ,
and if I run they'll be twice as strong.
I wait for a warning,
I'm waiting for some kind of sign .
I try to seperate,
Try to seperate my body from my mind .

Cold feelings in the night,
You know ,
This feeling just ain't right .
And though I try I just can't hide
Cold feelings in the night
I watch the clock as the second
hand slowly goes strolling by.
I don't want to feel
When a loved ones time's comes to die
I've been awaiting,
I'm waiting for some kind of sign
I try to seperate,
Try to seperate my body from my mind.

Yeah I got faith ,
But sometimes fear it just weighs too much
I don't wanna feel,
Cold winds blowin through me with a icy touch.
I wait for a warning,
I'm waiting for some kind of a sign .
I try to seperate,
Try to seperate my body from my mind .
