The silence when doors open wide
Where people could pay to see inside
For entertainment they watch
his body twist
Behind his eyes he says I still exist
This is the way, step inside (4)
In arenas he kills for a prize
Wins a minute to add to his life
But the sickness is drowned
by cries for more
Pray to God make it quick - watch him fall
This is the way, step inside (4)
This is the way (4) This is the way,
step inside
You'll see the horrors of a far-away place
Meet the architects of law
face to face
See mass murder on a scale
you've never seen
And all the ones who tried hard
to succeed

This is the way, step inside (4)

And I picked on the whims of

a thousand more

Still pursuing the path

that's been buried

For years of dead woods and jungles and

cities on fire, can't replace

or relate,

can't release or repair -

take my hand,

and I'll show you what was - it will be
