In my Country their in the distance (Everytime I leave  
it's not the time to try)  
Did you think before you got it (I'm leaving for all  
reasons)  
Everytime you breathe I hope you think of me  
Those are the words you told me, told me  
No questions why'd I'd have to leave (I guess it's time  
to leave)  
One reason I restored with sleep (I'll think of what I'll  
be)  
This moment feels like destiny (I won't dare to eat)  
Won't you tell me, tell me?  
You want me to always remember  
You promised I always will  
You'll watch and wait for my return  
You promised I'm coming home  
For all the loney nights when your not feeling alone  
You'll taunt the midnight sky and wish the sunrise  
This the life we live, the only one that we know, these  
things just never ends, never ends  
You want me to always remember  
You promised I always will  
You'll watch and wait for my return  
You promised I'm coming home  
It's not the time to leave, it's not the last goodbye (don't  
know I can't resist this)  
Did you think before you've all forgot it? (I'm destined  
to always come home)  
Everytime you breathe I hope you think of me  
Those are the words you told me, told me  
So when will it end?  
When will it end?  
When will it end?  
When will it end?  
Sometimes I don't know  
Where I am  
Where I'll be  
Feels like I'm so far  
Far away  
Far away  
From home
