Faced to this window, finding something different after
this

Looking far away the sun rise upon this days.

Dark clouds are open wide to these black skies

Holdin' the air with my hands bringin' it to my mouth.

So bring me where all begins

I'm not scared

I'm not dreaming, you're not so far

Stumbling here with hands on my face

My fears rising from the floor

Shadows Catch my breath and leave no signs

But my skin can feel the cold that's keepin' to freeze
my bones.

I won't stand here to waste again my possibility

I won't forget your face 'cause you've never forgot
mine.

Hold this in flames.

So bring me where all begins

I'm not scared

I'm not dreaming, you're not so far

Wolves howl, wolves at my door

Awaken from their sleep, by the call of the moonlight

I'm lost here,

I'm lost here

I am lost.
