Wake up!
You're sleeping on the floor but now it's shaking
And I see your dreams quickly sink and drown
Hold on your hopes, hold on scattered on the depths.
consumed by the human's desire
So watch me set this ship to the waves.
We're losing everything
Hold on your hopes, hold on your hopes
We're lying to the ground
I'm losing everything
So I tell you stay with me.

Clean your life
Learn to change your mind
We don't wanna live, with this pain inside

We won't be confined within their empty smiles
Watching the clouds bring light away from this place
We're not just a sacrifice for the hungry eyes
So throw me to the wolves
I'll not die.
We're lying to the ground
I'm losing everything
So I tell you stay with me.
God!
I'm coming home
Don't leave my heart
Be my strength, be my way
Even now that your voice leaves my ears.
