Hey! I don't need to study
'cause everynight i watch
the national geographic channel
before i go to sleep
god bless tv! - i repeat - god bless tv!
With cereals i exaggerate
but brian molko more than me
the horoscope advises me to wait
...hey! I need something to sleep!
Something to sleep! - i really do - something to
sleep!
I think i need a friend that knows modern trends
that choose the best for me
and that sings for me :
" the 70's are over for ever and ever
and maybe it's better that way!"
Tomorrow i'll have a friend
a modern lucky man
that tells me how to be cool
and we'll sing together :
" the 90's are over for ever and ever
and maybe it's better that way!"
