It's all in the way you rise in the morning time
rested and feeling fine
Carry on through to the living room, we all got living to
do
Do do, do do do do do do do, we all got living to do

And now his honey babe's awake, carries over to
her a strawberry-mango shake
Sweet smile, soft eyes and his hand, she takes
Got a little bit of loving in the morning to make say,
Love in the morning to make x2

Across the street, got four small feet of two children
playing in the sand
She's got flowers on her dress, he builds a castle
to impress
And they run off holding hands, they run off holding
hands, they run off holding hands

Just down the road, see the man's quite old face
defined by smile lines
Tips his hat for his lady, gives a flower to his lady and
they walk on feeling fine
Yea they walk on feeling fine, They walk on feeling fine

Pre-chorus
See one day when morning comes Grab your old shoes
and run
Glancing back at the morning sun The morning sun,
the morning sun
Reflection is in your eyes, painted by the morning
skies, your delicately dealt disguise, rise

Chorus:
Well looking around we're grasping the all the little
significant found things
We see that inevitably, they'll carry us away and
then set us free
So, we find that this and that moment are one of a kind
Now swept, away by the words on the wall of that old
cafe

Walking right along we hear the good old song of birds
singing up in the trees
Got songs of these and those memories Just indulge in
the melodies (x3)

Since our birth weâ€™ve been walking this earth and
driving down different avenues
Got songs to choose, how about you play us some
blues?
Got a little bit of healing our souls can use, yea healing
our souls can use x2

In the steps we take, in the mornings we wake, in the
sounds, in the sights and breeze
In the simple things, in this life and these dreams I feel
home by the sands and seas (x3)

In the tears we cry, in the smiles replied in the sounds
of the songs we play
In the looks of day, in the places we lay
I got a spot by the sea, why donâ€™t we head that
way? Why donâ€™t we head that way? x2

Pre-chorus & Chorus
