"Go"

You said, "leave, go and plant your life, you have
the seeds"

You said, "now, now's your time to listen and
allow"

Then you said, "bye, you know the universe is on
your side"

"Be on your way now. Be on your way," you said
"Be on your way now, go!
Be gone"

You said "ego, the sun will rise without you if
you're slow"

You said, "leave, you're not happy here, I'm
not deceived"

You said, "now, if you really want to love, then go
learn how"

Then you said, "bye, I'll miss you more than
missing can imply."

Chorus

"Then at least we'll know one thing when all is
said and done
We won't have sat down still while we spun around
the sun, we'll say,
"I suppose we chose to finally make the darkness
glow, and
travel down these roads paved for our souls"
