I wanna take on the world.  
Bring them down to the ground.  
Whatever comes with the fall.  
Turn it Upside down!  
(Pre chorus)  
Suing yourself. A word from the wise.  
Your making your hell. You gotta know that you don't  
have nine lives!  
(Chorus)  
Open the door, there's nothing to lose anymore,  
whenever your believed in before, you know it's not  
hopeless.  
Come on pick yourself up, off the floor, and find out  
what your really fighting for, whatever your believed in  
before, you know it's not hopeless.  
(Verse)  
I don't have anything here. Nothing I can't live without.  
The road is so very clear. And I don't have any doubts!  
(Pre chorus)  
You live with the pain, and keep on tempting your fate.  
Our futures the same, you wanna know that it's never  
too late.  
(Chorus>)  
(Bridge)  
New plan, so follow if you can. See her, yesterday is  
over. New man, the futures in your hands, see now,  
how to make it sober. Because yesterday is over!  
(Guitar solo)  
(Chorus>)
