{VERSE 1}

For so long I have felt alone
Content to live with unrest
Longing faded into countless
nights that buried my weary heart
You brought an end
To this dead hour
And meaning to a
a calloused life

Held in Your arms
But too far from my heart (x2)

{CHORUS}

These thoughts will carry me
Through The darkest nights
While Your eyes rest in...
These thoughts will carry me
Through The darkest nights
While Your eyes rest in mine

{VERSE TWO}

I remember the way You looked
At me and the way you drew
drew me close
With one deep sigh
Scattering pieces of my
my restless mind
Forgetting all that we

we have left behind {x4}

{CHORUS}

These thoughts will carry me
Through The darkest nights
While Your eyes rest in... {x3}
