

## **As I Lay Dying "The Beginning"**

Visit "[The Beginning](#)" on MotoLyrics.com

From here to eternity we begin understanding  
From here to eternity  
I see who you are and who else can compare  
I meant what I said, I promised to stand by your side

Until the end, that's where we begin  
Until the end, that's where we begin

From here to eternity we begin understanding  
It is our hearts that define what has meaning in life  
Some will ask how can this be but it was you who made  
me feel  
From here to eternity we begin understanding

Until the end, that's where we begin  
Until the end, that's where we begin  
Until the end, that's where we begin  
Until the end, that's where we begin
