I saw her face, I can't deny, That I fell in love with her

I saw her face, I can't deny, That I fell in love with her

I saw her face, I can't deny, That I fell in love with her

I saw her face, I can't deny, That I fell in love with her

love with her, love with her

love with her, love with her

I saw her face, I can't deny, That I fell in love with her

I saw her face, I can't deny, That I fell in love with her

And I hope you will

cause I miss you too

and i'll forever being yours

I saw her face, I can't deny, That I fell in love with her

I saw her face
