You did this again

Made by tears, it was so obvious  
That you would fall, all apart  
I can't see your ribs, did the princess take them to  
Can't see she's gone, by her own

Lets begin to fight, lets make it rain blood tonight  
Cause I hope you'll do your best, to atleast find her  
chest  
If you going through a cell, I will send you too hell  
With my sword, right through your chest

And will you fight for me until the sun rise?

Lets begin to fight and you will be so far from me  
Do you realise? What, you did to me  
Born in a castle  
How could you throw it all away?

Cut my throat and leave me here to bleed with nothing  
left from you, this will be the end of me and you

She tried to be the one but know she's gone, blood  
running threw my veins

Lets begin to fight and you will be so far from me  
Do you realise? What, you did to me  
Born in a castle  
How could you throw it all away?

She was a princess who had it all, until the day when  
she disappeared, but I'll never give up the hope about  
finding her again

I'll never give up the hope, to find her again  
For god sake you can't be dead, I found her dead  
tonight  
I'll take suicide for your sake, I cut my throat for you  
I found a reason to blame on you, the knights will follow  
you
