I fell in love
When I lost myself in your arms
I fell in love
Now I know I can't resist your charm

'Cuz everytime I'm alone
Every second you're gone
Every step I am taking without you hurts
And everything that I do
Every feeling it's true
Every heartbeat says "I love you"

And if I could
Turn back the time I've lost
Being far from you, I'll never
Make the same mistakes, I'll love you
Until my heart breaks

I'm gonna run to you
There's no reason I won't
Take this chance for us both
And Imma run to you
Even though you will break my heart
I'm gonna run to you
One more chance I will take
Know my heart you will break
And Imma run to you
Loving you it's the last thing I got

I miss your love
When I sleep alone in my bed
I need your love
When I wake up lonely I feel sad

'Cuz everytime I'm alone
Every second you're gone
Every step I am taking without you hurts
And everything that I do
Every feeling it's true
Every heartbeat says "I love you"

And if I could
Turn back the time I've lost
Being far from you, I'll never
Make the same mistakes, I'll love you
Until my heart breaks

I'm gonna run to you
There's no reason I won't
Take this chance for us both
And Imma run to you
Even though you will break my heart
I'm gonna run to you
One more chance I will take
Know my heart you will break
And Imma run to you
Loving you it's the last thing I got

I'm gonna, I'm gonna, I'm gonna run
I'm gonna, I'm gonna, I'm gonna run
I'm gonna, I'm gonna, I'm gonna
Run to You
