Baby it's no mystery

You're bringing out the best in me

And though I've been in love before

I've never had the kind of love that made me feel
secure

I never thought that give and take

Mentality was right for me, hmm

You made me open up and see

That it's for real

And there's no other place I'd rather be

1 - I think about you all the time

24-7 babe

The love I have inside for you

Is more than any words can say

Thanking God on bended knee

We'll always be together babe

You and me

If there's a high or low

Anything can be babe

I'll be there for you to pick you up off your feet, yeah

Thanking God on bended knee

We'll always be together babe
You and me
When I'm in my nine to five
I smile went across my lips when I
Daydream about the night before
I count the minutes till I'm in your arms once more
My friends they don't understand, no
In me they see a brand new man
I give you props and tell them that
My shorty's bout it
She personifies the love she gives
Repeat 1
Oh how I've waited for this moment in my life
It's you that I adore
Baby with you I am secure
My life is in your hands
And now I understand
What it means to be in love again, oh
Never gonna let u go, oh no
Repeat 1 till end
